The A&S Story

A&S stands for Aiello & Sons. We are a family owned and operated business serving the greater Washington, D.C. area since 1971. From granite countertops to ceramic tile, kitchen cabinets to home furnishings & decor, A&S Home is truly your number one resource for any home improvement project. A&S Home offers a variety of services and products that give you the custom finished space that you have always imagined. Our professional design consultants bring elegance to projects, both large and small, by working with customers from conception to completion. Whether it's hanging from the ceiling or sitting on the floor, all items we showcase in the showroom are available for purchase.

With A&S You Benefit From...

Large Showroom with On-site Fabrication Plant

We have a beautiful showroom with an on-site fabrication facility to efficiently address all your needs.

One-Stop-Shop

Access to all of our products and services in one place provides you with a complete shopping experience.

Peace of Mind

We offer a 10-year warranty on our residential countertop installations to give you the peace of mind you deserve.

Large Selection

We have one of the largest stone slab collections in the area and all are in stock.

Loyal Customer Base

Our customer base includes Homeowners, General Contractors, Designers, and Architects.

Exclusive Products

We carry an exclusive selection of unique handpicked products all available to help transform your space.

Our retail design center is the perfect place to start your home improvement journey. We offer an extensive display of natural stone & quartz slabs, tile, home furnishings, lighting, and accessories to help transform any space into the perfect expression of you.

Custom Natural Stone & Quartz Surfaces

A&S specializes in custom fabrication and installation of natural stone and quartz surfaces, done with unparalleled quality and service. We operate an in-house, high volume production facility and have a dedicated installation staff available to quickly service your needs. Our in-stock material selections primarily include: granite, marble, limestone, quartzite, engineered stone, and recycled glass surfaces, giving you the multiple design and price options you want.

Natural Stone

Natural stone is truly an affordable luxury. Innovative advancements in quarrying and fabrication keep natural stone competitively priced. No other material comes close to its long-lasting beauty, complexity, and character. The most common types available are Granite, Quartzite, Marble, Limestone, Soapstone and Slate. Granite and Quartzite being the ideal choice for kitchen countertops since they are both highly resistant to heat, scratching, cracking and staining so daily activities pose no problem.

COUNTERTOPS

Engineered Stone

Or simply put "Quartz", offers the ultimate combination of form and function, allowing for a durable and practical surfacing material for busy families. Available in a multitude of colors, nonporous, highly stain, crack, scratch, chemical, and heat-resistant, Quartz is the ideal choice for carefree kitchen countertops, bathroom vanities, table tops, and much, much more. We are proud to work with the leading brand names in the industry.

Our 5-Step Countertop Ordering Process:

Stage 1: Receive a Free Estimate for Custom Countertops

Fill out our Online Estimate Form. Then bring in, email, or fax a simple hand drawing or a detailed plan of your project and we'll give you a free preliminary quote.

Stage 2: Material Selection

Stop by our slab showroom and browse our selection of beautiful stones. Hand-select the stone of your choice with help from A&S in-store Consultants.

Stage 3: Measurement

We will come to your home and create an exact, full-size pattern and/or drawing of your new counters, clearly showing seams, cutouts, edges, backsplashes, radii, faucet holes, etc. This template will then be used to create your new countertops from the material you chose.

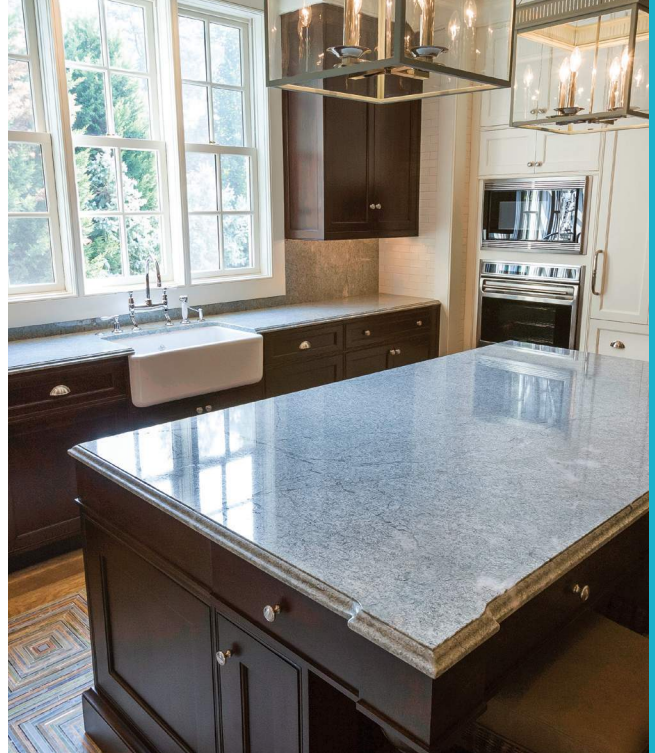

Stage 4: Fabrication

Fabrication can begin once all templates and drawings have been approved, all fixture information has been provided and the material color has been selected. Typically, we provide a 5-7 day turnaround from the time of templating to final installation as long as no unforeseen complications arise.

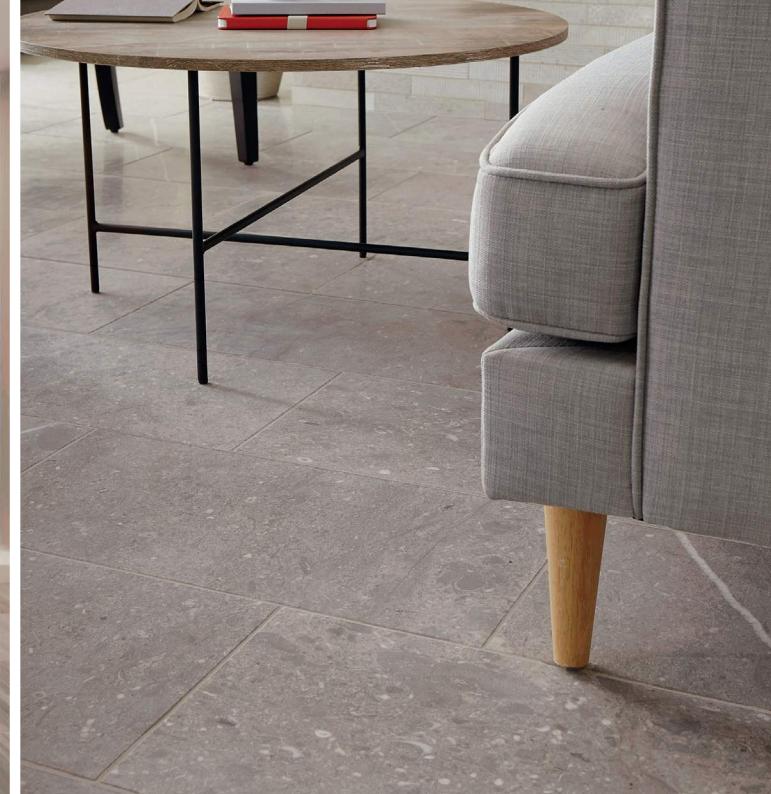

Stage 5: Installation

The majority of home installation jobs range from 2-8 hours. While any project involves some dust, installation is fairly painless because most of the cutting and polishing is done in our plant and not in your home.

Prepare to be amazed! Daltile's latest technology and finishes create beautiful interpretations of the finest marble from around the world, with ease of porcelain tile.

TILE

Tile Design Center

In addition to our custom natural and engineered stone services, we offer fine porcelain, ceramic, glass and natural stone tile. Our tile design center boasts an extensive selection of tile to choose from so you're sure to find the right tile for your job.
